

A dynamic background image featuring a large, clear water splash that rises from the bottom center, creating a V-shape. Numerous small, translucent water droplets and bubbles are scattered throughout the scene, particularly concentrated around the edges of the main splash. The overall color palette is a range of light blues and whites, giving it a fresh and clean appearance.

POLYFIT[®]

Building Materials

FLUSH CISTERN MECHANISMS

POLYFIT Flushing & Fill Valve

Systems are precision-engineered to deliver silent, efficient, and leak-free performance for modern bathrooms. Built from premium-grade materials, our mechanisms ensure long-lasting operation even under varying water pressures.

WC SEAT COVERS

Engineered from high-grade Polypropylene (PP), POLYFIT toilet seats combine everyday durability with modern ergonomic design.

Built to fit all standard ceramic toilets, our collection offers both Soft-Close (silent closing) and Standard Close mechanisms.

WC PAN CONNECTORS

Our Extendable WC Pan Connectors are reinforced by 1 mm stainless steel wire.

We have 3 different types; straight, bowl & extra inlet wc pan connectors. All types are available in blue - black - orange color options. Average size length is 50 cm when it is extended. Hose diameter is 100 mm. Made in Turkey for durable quality.

BASIN & KITCHEN SIPHONS

Engineered from high-grade Polypropylene (PP), POLYFIT basin siphons combine everyday durability with modern ergonomic design.

Built to fit all standard wash basins, our collection offers also kitchen sink drain siphons with stainless steel grids.
